## Ontario restaurants to showcase the best of Ontario beef and cow's milk cheese at series of unique *Feast ON Nights* dining experiences.

Toronto, ON (October 7, 2015) – This fall, [Feast ON](#)-certified restaurants across Ontario will be offering unique dining experiences designed to highlight Ontario food and drink. Participating restaurants throughout the province will create special dining experiences that showcase Ontario beef and cow's milk cheese, produced by the Beef Farmers of Ontario and Dairy Farmers of Canada, and powered by [Pass The Table](#).

Every Feast ON Nights experience will be designed by skilled chefs and fit the individual style of the restaurant. These experiences will help foster a deeper relationship between consumers and their food, and showcase the high quality ingredients produced within our province.

"We're a part of #FeastON Nights in order to show people the local food at our front door," said executive chef Shawn Murphy of Southbrook Vineyards. "Feast ON helps people, helps us, connect. We're growing our knowledge base and growing Ontario's local food sector. We're proud to be a part of that."

Feast ON is a designation program of the Ontario Culinary Tourism Alliance that celebrates chefs and restaurants committed to sourcing Ontario products. Feast ON inspires and assists travellers in discovering Ontario's "taste of place" so they can experience all the delicious flavours this province has to offer.

"Feast ON Nights will not only be delicious for everyone who takes part but it will connect people with local food, producers and chefs in a new way," said Rebecca Mackenzie, Executive Director of the Ontario Culinary Tourism Alliance. "With more than 100 restaurants throughout the province with a Feast ON designation, we know there will be plenty of opportunities for people to go out and explore the best food Ontario has to offer."

The series will also give diners insight into how local food goes from production to plate.
